CAVAN COUNTY MUSEUM

Cavan County Museum has an extensive collection of galleries which charter the historic, economic and social development of County Cavan since it was founded. The museum is frequently used as gallery to display art, photography and other exhibitions. The arts spaces at the Johnston Library, Farnham Street, Cavan and the libraries in Cootehill and Bailieborough present an annual programme of community and arts activities.

CUILCAGH BOARDWALK TRAIL

Classed as the 'Stairway to Heaven' by the thousands of tourists that have taken the trail, it has becoming the must do trail for anyone in the area. With a round trip of 14.8Km and an estimated trail time of 6 hours in total, its more suited to anyone with a healthy fitness level. The trail meanders along a quiet farmland track before traversing a wooden boardwalk that consists of a steady climb to the mountain face.

Here a stepped boardwalk climbs through steep terrain and boulders fields before reaching the summit. The imposing mountain flanks of Cuilcagh give the walk a very atmospheric feeling providing breathtaking views, the most impressive view is of Lough Atona, a lake nestled at the foot of the mountain which was carved out by the glacier during the last Ice Age approximately 13,000 years ago.

ERICA'S FAIRY FOREST

Erica's Fairy Forest is a magical Fairy Forest, located in Cootehill, Cavan dedicated to the memory of Erica Ní Draighneain, (2010-2016). This Fairy Forest offers a magical sense of wonder and delight.

FISHING

Cavan has a well earned reputation for its coarse and pike fishing. There are many fine game angling river stretches and wild Brown Trout lake fisheries. These lakes and rivers have good stocks of Bream, Roach, Rudd, Perch and Pike. Eels are present in all waters in the county. Roach, Bream and Rudd Bream Hybrids are found in the majority of these fisheries.

Tench are now more widespread and have grown to specimen size in some fisheries. In recent years, Carp have been stocked into selected waters and will soon provide good sport.

Farnham Lough offers Pike, Tench, Perch & Rock Roach.

Fishing tackle is available to hire.

GOLF AT FARNHAM

Farnham Estate's Golf Club House located in the corner of the front paddock beside the 18th hole and is open daily serving a selection of light snacks and beverages in an exceptionally relaxing environment. During your time there why not visit our Pro-shop, stocked with a wide selection of golf retail.

We are delighted to welcome you to our fabulous golf course at Farnham Estate, designed by Jeff Howes. This stunning parkland course is spread over 500 acres of rolling countryside and dense woodland. The two nines are quite contrasting in nature. The gentle but challenging journey on the front nine explores the undulating meadows of this magnificent estate while the back nine is a more vigorous test of golf, traveling through denser more rugged woodland.

The course opens with a gentle par four, but from the second onwards, the golfer can expect to have every aspect of their game tested to the limit. Bunkers are not in plentiful supply at Farnham, but each one is very well positioned and in the main, quite large and flat. They are not manicured as one might expect, but aesthetically natural which is the overriding feeling of the whole estate. The greens are a near-perfect texture and allow for a wide variety of possible pin positions, facilitating the enjoyment of all categories of golfer. The contours are interesting but sensible.

KILLYKEEN FOREST PARK

Five miles west of Cavan town is Killykeen Forest Park, in the heart of Cavan's lakelands. Marked trails lead into the dark forests where visitors can view the park's fauna and flora, disturbed only by the sound of birdsong and the rippling waters of Lough Erne. Killykeen is a special place in all seasons and at all times.

MARBLE ARCH CAVES

Located on the same Geopark as the Cuilcagh Trail in Fermanagh, The Marble Arch Caves are known as one of Europe's finest showcaves and allow visitors to explore a fascinating and natural underworld of rivers, winding passages and lofty chambers. The Informative guides conduct tours past a bewildering variety of cave formations. Stalactites glisten above steamways and chambers, while the fragile mineral veils and cascades of creamy calcite coat walls and create shimmering terraces.

Spectacular walkways give easy access and the powerful lightening reveals the stunning beauty and grandeur of the caves. The electronically powered boats glide through the huge caverns carrying visitors along the subterranean river. The duration of tours can depend on the levels of water within the cave, so it is advised to call ahead to ensure access is available. Pre-booking is essential.
